Keep Writing

The latest edition of the *Keep Writing* English writing skills course, trusted by educators in the Middle East for over 20 years, is now available.

ALWAYS LEARNING

Writing is traditionally one of the harder English language skills to master. *Keep Writing* provides a methodical and culturally appropriate resource that keeps learners engaged and motivated as they make progress in their English writing.

This two-level series has been designed especially for beginner and intermediate level learners by Richard Harrison, who has many years of experience teaching in the Middle East. The fully revised and updated second edition builds on the enormous popularity of the first edition with several exciting new features:

- NEW contemporary topics and regional content
- NEW full-colour illustrations and photographs
- NEW review section at the end of each unit

Keep Writing provides step-by-step guidance for learners as they come to understand basic conventions of English paragraph writing, including sentence structure, spelling, punctuation, verb formation and capitalisation. The features which made the first edition of *Keep Writing* so successful have been retained in the new edition:

- A teacher guide at the back of the book contains guidance, timings and an answer key.
- Real-life, relevant examples and situations are included throughout.
- Continuous guided practice provided through a variety of pedagogically sound and motivating exercises.
- Clear and concise language coverage that helps students apply grammar accurately in their writing.
- Comprehensive vocabulary presentation and practice that ensures mastery of key words.

“*Keep Writing is a wonderful writing course for low-level Arabic learners of English. It engages and motivates students and builds on what has already been taught. What I love about this series is that the content is specific to the Middle East and is culturally appropriate. I have used it with students in Omani government and private schools and was very pleased with the outcomes.*”

Michele Ni Thoghda, Ministry of Education, Sultanate of Oman
